

2nd Grader Eli- This student is a genuinely sweet, kind boy, and a blessing to have in our class. He shows compassion to everyone around him and his smile is contagious. He gives his full attention to everyone he talks to and always includes his classmates. When given the opportunity to choose his own partner, he always chooses one of the new students. If I ever need help around the classroom, this student is the first one to volunteer, most of the time without me even asking! If a student needs help, This student is the first to offer. If someone is hurt or upset, he's the first to lend a hand or ask if he/she is okay. He holds doors open, encourages and compliments others. His acts of kindness make a huge impact and do not go unnoticed.

3rd grader Fred- This student is so kind to his classmates, he is a true friend. Freddy is eager to work and play with everyone, he is fun and has a kind spirit!

6th grader Khloe- This student is new to MBS this year, but that does not stop her from being kind to everyone who crosses her path. I have witnessed her helping classmates without being specifically asked to, being a good listener when talking with friends, and has a smile on her face most days and never complains about anything that happens at school. She is a wonderful addition to our school and the 6th grade!

8th Grader Kennedy- This student has a kind, Servant's Heart. She goes above and beyond daily to help anyone in need. There is a fellow student who sometimes struggles with organization/fine motor skills. She is the one who will quickly and discreetly aid him if he needs to find his place in a book or a paper in a folder. In her role as Head Server, she cheerfully helps train less experienced servers. She is never showy in her actions, she never seeks praise, she just consistently does "the next good thing."
